

Group 1802

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants: Roy Curtiss III and Steven A. Tinge

Serial No.: 08/473,789

Art Unit: 1802

Filed: June 7, 1995

Examiner: P. Murthy

For: RECOMBINANT BACTERIAL VACCINE SYSTEM WITH ENVIRONMENTALLY LIMITED VIABILITY

Assistant Commissioner
for Patents
Washington, D.C. 20231

GROUP 1802

INFORMATION DISCLOSURE STATEMENT

Sir:

Pursuant to the duty of disclosure under 37 C.F.R. §1.56, Applicants cite the following publications, which are listed in the enclosed twelve pages of Form PTO-1449. Copies of the publications are enclosed.

Applicants believe that no fee is required for consideration of this Information Disclosure Statement. However, if a fee is required, the Assistant Commissioner is authorized to charge the fee to Deposit Account No. 01-2507.

INFORMATION DISCLOSURE STATEMENT

This statement should not be interpreted as a representation that an exhaustive search has been conducted or that no better art exists. Moreover, Applicants invite the Examiner to make an independent evaluation of the cited art to determine its relevance to the subject matter of the present application.

Applicants are of the opinion that their claims patentably distinguish over the art referred to herein, either alone or in combination.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'Patrea L. Pabst', written over a horizontal line.
